It is our immense pleasure to recommend Teri Idarola-Harley as a real estate agent for the sale of your home or to find the ideal home. Teri managed to sell our house, especially in the current market situation. She knows South Jersey like the back of her hand. There is nothing that escapes Teri's attention when it comes to property for sale in this area. We found Teri to be a highly attentive agent, she returned all phone calls and emails the same day. We never felt neglected or unimportant. She is also highly personable with an engaging personality. Teri is honest again, highly talented technologically. We are pleased to recommend Teri Idarola-Harley to anyone looking to buy or sell a home. She is hands down the best in the business in our opinion and if we ever need to move again, she will be our first choice in real estate agents.

Regards, Gina & Tony Oliveira

Purchasing your first home is an exciting, yet *SCARY*, endeavor. Thankfully, we had Teri! Our closing in August of 2011 was a little more complicated than a normal purchase. Our home was listed as a “Short Sale work”, and we were taking out a VA loan to mortgage the property. Teri fought tooth and nail, battling the banks, realtors, mortgage brokers, attorneys, and Veteran Affairs, to ensure that all previously noted stipulations were met, and in *HALF* the time. We could not have been happier. Teri is emotionally invested in her work, and she would not allow us to settle on any aspect of negotiations. A review is not enough to detail how helpful and dedicated she is.

We highly recommend Teri and wouldn't purchase another property without her.

We had a week to find a house, and Teri lined up several prime properties to view. She knew the area well, and we bought the perfect house in the nicest neighborhood. We have the shortest commute we ever had. Teri is caring, professional, efficient, generous, and kind.

She looked out for our interests more like a close friend than an agent. We are pleased to have met her and to have had such a warm introduction to our new State.
