

PVent® Microbial WP

Biostimulant Enriched Crop Enhancement

This multipurpose fertilizer was designed with compelling components known to improve plant growth and development, increase crop vigor, strengthen stress tolerance, support overall health, plus boost crop quality and yield. Whether you are making a soil or foliar application, PVent Microbial WP’s biostimulant enriched formulation will enhance your crop performance.

KEY FEATURES

- Beneficial biological inoculant
- Blend of powerful biostimulants
- Guaranteed one year shelf life
- Soil, foliar spray, and fogging applications
- Concentrated wettable (WP) formula

GUARANTEED ANALYSIS:

Total Nitrogen (N).....	4.0%
4.0% Ammoniacal Nitrogen	
Available Phosphate (P ₂ O ₅).....	1.0%
Soluble Potash (K ₂ O).....	2.0%
Derived from Soy Protein Hydrolysate and Kelp Extract (<i>Ascophyllum nodosum</i> and Potassium)*	
*Extracted with Potassium Hydroxide	

CONTAINS NON-PLANT FOOD INGREDIENT(S):

Microorganism

Clonostachys rosea (1 X 10⁹ cfu/g)

The Benefits of Proven Ingredients

Humic Substances

- Improves photosynthesis and respiration
- Enhances plant growth and development
- Strengthens abiotic stress tolerance
- Increases nutrient uptake and assimilation

Kelp Extract

- Promotes balanced growth of crops
- Enhances root growth and shoot biomass
- Bolsters crop quality and yields
- Strengthens abiotic stress tolerance

Soy Protein Hydrolysate

- Stimulates plant growth
- Improves nutrient uptake
- Enhances fruit set and quality
- Strengthens abiotic stress tolerance

Clonostachys rosea

- Promotes plant vigor
- Improves nutrient uptake
- Enhances growth and development
- Strengthens abiotic stress tolerance
