### ABOUT REYA

REYA is more than learning dance steps. It is choreography, coaching, listening, and personal guidance.

Many people believe they are coming for dance lessons. In reality, they are often looking for confidence, connection, and a moment each week that is truly their own.

Every student arrives with a different story, and every session is adapted to the individual. REYA is a boutique private coaching practice focused on personal attention and meaningful progress, working with a limited number of clients by appointment.

Following a career of competing, coaching, and directing a successful dance studio in Europe, Rémi Janssen created REYA in Houston to provide a more personal and supportive coaching environment.

Some clients prepare for weddings, others for social or competitive dancing, and many simply for personal growth and enjoyment.

Dance becomes a vehicle — the real goal is comfort, presence, and confidence in everyday life.

### THE MEANING OF REYA

#### R — Refinement

Developing natural posture, grace, and presence in how you move and carry yourself.

#### E — Expression

Learning to communicate emotion and connection through music and movement.

#### Y — You

A personal journey centered on comfort, confidence, and rediscovering yourself beyond daily responsibilities.

#### A — Artistry

When movement becomes natural, relaxed, and uniquely yours.

### DANCE STYLES

Coaching may incorporate elements of International, American, and selected Social / Competitive dance styles depending on client interest and goals. REYA does not offer a fixed curriculum or syllabus.

Dance begins with steps.  
It grows through choreography.  
But often, it changes how you feel about yourself.

REYA is not a traditional dance program. It is a dedicated moment each week to reset, reconnect, and feel comfortable in your own movement again.
