

NeoLifting® 3-Month Facial Transformation

NeoLifting® is a holistic facial sculpting therapy that works on multiple layers of the face — the skin, fascia, lymph, and muscles — to restore your natural lift, vitality, and radiance. Developed in Europe, this advanced technique incorporates **facial release, buccal massage, and lymphatic drainage**, offering a deep re-education of the facial structure from the inside out.

During your NeoLifting® journey, we address not only the visible signs of ageing but also the **underlying muscular and emotional patterns** that have shaped your face over time. Through precise and intuitive manual work, tension held in the fascia and muscles is released, allowing your natural contours to re-emerge.

The **buccal massage** (inner mouth technique) is a powerful part of this therapy. It releases deep tension stored in the jaw, lips, and lower face — areas that often hold years of emotional suppression and unconscious clenching. When released, circulation improves, lines soften, and your jawline redefines with a sculpted, youthful look.

Through **lymphatic drainage**, stagnant fluids are gently moved out of the tissues, reducing puffiness, detoxifying the skin, and improving microcirculation. This oxygenates and nourishes the skin cells, giving your face a radiant glow and promoting cellular regeneration.

Facial muscles, like every muscle in the body, have memory. Over time, repeated expressions and emotional holding patterns create tightness, asymmetry, and restricted flow. **NeoLifting® retrains these muscles**, releasing years of accumulated stress and restoring healthy tone, elasticity, and balance.

While **you'll see visible change after your first session** — feeling lighter, lifted, and more open — the true transformation is **cumulative**. The body learns through repetition. By attending one session **every two weeks for three months (a total of six sessions)**, each treatment builds upon the previous one, re-educating the facial muscles and fascia for long-lasting structural and energetic renewal.

After your initial three-month journey, maintenance sessions every 4–6 weeks help preserve your results, keeping your face lifted, sculpted, and glowing with continued vitality.

■ **Reset & Resculpt NeoLifting® Series** Commit to six sessions at \$199 each — total **\$1194**, saving **\$600** when paid upfront.

■ **NeoLux Light Therapy Series** Commit to six sessions at \$249 each — total **\$1494**, saving **\$600** when paid upfront.

This is not just a facial — it's a ****reconnection with your essence****, a reminder of your natural radiance, and an invitation to look and feel renewed from the inside out.
